

Stürtz goes where the market is - Stand C130

The turn key supplier for machines and manufacturing systems for the PVC-U window manufacturer is scoring again with cost effective solutions. The new frame line that will be shown for the first time at the Glassex exhibition 2006, consists of a Stürtz SE-HSM-6K horizontal six head welder connected with the new single head transom cleaner TC-MC-1H. The single head corner cleaner is specially designed to clean frames with welded transom profiles and frames with profile combinations. Contact Sturtz Maschinenbau Tel: 0049 (0)2683/309-168.
